THE BULLETIN BOARD

Tonight Bill Dollarhide will present his Genealogical System to us. He has developed a number of items to help in research and in organizing genealogical information. He has also developed a system for putting genealogy on a computer. That sounds like a lot for one evening. When he spoke to our group a couple of years ago everyone enjoyed him so much. We are glad to have Bill back again.

We have a number of interesting programs planned for the coming months.

In December Carmen Westover will speak to us on the Huguenots.

In January we want everyone to bring some of their work from home so we can share what we have with each other.

Polly Vann will speak to us on local cemeteries in February. She has spent many hours recording the graves. She will accompany her talk with some very interesting slides.

Judith Allison Walters will speak to us in March on copying old pictures and on preserving other records. If there is anything you would like to know about caring for your old things this will be your opportunity to find out. She also has a studio in her home where she does this work.

Some of our members spent last week at the new library in Salt Lake City. They all seem to have had a very enjoyable and profitable time. The new library is just across Temple Square from the old library. Those who have been to both report that the new library is larger and more convenient than the old one. For those of you who have never been to the library, it is really worth the trip. There is so much material right there at your finger tips. The personnel are extremely knowledgeable and helpful.

Eastside Genealogical Society is now a member of the American Genealogical Lending Library. You are free to order from the Library using our club membership. If you will agree to leave the film with EGS, EGS will pay one half the cost of the film. Several of our members have availed themselves of this plan and ordered microfilm from the library. Billie has the catalog and can give you the details.

Dan Weaver ordered the following film: Passenger Lists Index, Dean-Del-Atlantic 1820-1874.

Jackie Smelser ordered a film that covers the following topics: Huguenot Publications #10, #11, #12, and #13; Winfree Genealogical Workbook; a Potter-Richardson Memorial; the Kimberly Genealogy; the Family of Cleveland Eldred Shook; the Hallmark Family; the Fleetwood Family; Texas Origins and Backgrounds; the Cumings Family; and American Ancestry.

Billie Holnagel ordered a film that has on it American Ancestry, Volumes 2, 3, 4, 5, 6, 7, 8, and 9.

This film is available for use by anyone at the desk at the Lake Hills Library.

Pat Thomas just returned from a trip to the Midwest. She visited the Vesterheim, The Norwegian-American Museum, at Decorah, Iowa. Those of you with Norwegian ancestry might be interested in learning more about this museum. There is a folder about it on the back table and Pat will be glad to tell you about it.

We like to let our members know about events in the area of genealogical interest. If you know of anything coming up, please contact me, Betty Pfeiffer, at 823-9053.

Saturday, November 16th, the Seattle Genealogical Society is sponsoring a Genealogy Research Seminar on Washington State, to be held at the YWCA, 5th and Seneca. There is still time to call the SGS office for information about this. Their number is 682-1410.

The South King County Genealogical Society will have a seminar on February 15, 1986. Their speaker will be Mr. Ron Bremer, founder of the Federation of Genealogical Societies, author of the Compendium of Historical Sources, and editor of the Roots Digest. They would like you to register just as soon as possible. The fee is \$10. You may send your registration to Marge Linehan, 848 Maplewood Avenue, Kent, WA 98031. For further information call Sammie Lou Hudlicky, 838-2319.

Margaret McFarland found a news item in the Ontario, Canada Genealogical Society bulletin stating that the 1891 Canadian Census has been released and will be ready for the public in January of 1986.
